Shamsir Jasani
Grant Thornton

Sunway Group

The professional service(s) firms and major commercial organisations shown above are now recruiting top calibre, fresh and working graduates to complete the ACA (Associate Chartered Accountant) programme in Malaysia. To qualify as an ACA you will need to complete the professional exams and a training contract of between three to five years with an ICAEW (Institute of Chartered Accountants in England & Wales) authorised training organisation.

As a qualified ACA you will become a member of the ICAEW, one of the most highly respected and prestigious accounting bodies in the world. You will also be eligible for membership with the Malaysian Institute of Accountants (MIA). The ICAEW, over 125 years old, is one of the largest professional bodies in Europe, with over 128,000 members -- many of whom are working in Malaysia at the very pinnacle of the business world.

Come to our special preview and meet your future employers!
